

## Walton House Wish List

The Wish List developed by the Walton House Board is designed to allow collegiate and alumnae chapters the opportunity to adopt a manageable, reasonably priced project to enhance livability at Walton House. The projects have an estimated current cost, but may vary depending upon the time of purchase. The projects can be broken down into parts, for example, a chapter may decide that it can fund one of the heating and air conditioning units, and that unit can be ordered and installed through Headquarters. In each case, the chapter supplies the funding for the portion of the project they wish to purchase, and the actual purchase and installation is coordinated through Headquarters and the Walton House Board.

The following are our current Wish List items:

- ✦ **Combination air conditioning and heating units to replace existing old AC units. Three units are needed, one for each bedroom on the third floor.** These units are estimated to be \$1,000 each including installation. New units will significantly improve the comfort in these bedrooms.
- ✦ **Replacement windows for the third floor windows not used in AC ductwork.** These will be energy efficient windows and will prevent further maintenance issues with the current original windows. **Seven windows are needed.** The windows are estimated to be \$800 each including installation.
- ✦ **New window treatments for the Zeta, Alpha Upsilon, and Iota bedrooms on the second floor of Walton House.** New window treatments have been designed and are on view in the Sigma Shop at Convention. Estimates for each project are also included in the display.
- ✦ **Twenty-two new bunk bed mattresses for the third floor bedrooms.** The estimated price is \$300 each. Due to removal of old mattresses and installation of new mattresses, the Walton House Board prefers that these be purchased from a local furniture supplier to Walton House so that all delivery, removal and installation can be handled efficiently.
- ✦ **Twelve sets of white towels and wash cloths.** These can be purchased from Bed, Bath, and Beyond and shipped to Walton House. It is important that Headquarters be notified about this purchase, because we only need 12 sets not dozens of sets!
- ✦ **New pillows for a donated wicker seating set to be installed in the newly renovated first floor bathroom.** Color and design to be chosen by the Walton House Board. Estimated price to complete the work, \$400.
- ✦ **New combined heating and air conditioning unit to be installed in the first floor bathroom.** Estimated price is \$1,000 to include unit and installation.

Thank you for considering items in this Wish List to make Walton House a great place to visit and spend time. Your gift will be sincerely appreciated by the Walton House Board, and your gift will be featured in our next Convention report and on the Walton House web page. If you have any questions, please contact us at [sigma@trisigma.org](mailto:sigma@trisigma.org).
