

## Walton House Wish List

The Wish List developed by the Walton House Board is designed to allow collegiate and alumnae chapters the opportunity to adopt a manageable, reasonably priced project to enhance livability at Walton House. The projects have an estimated current cost, but may vary depending upon the time of purchase. The projects can be broken down into parts, for example, a chapter may decide that it can fund one of the upholstered pieces or draperies. In each case, the chapter supplies the funding for the portion of the project they wish to purchase, and the actual purchase and installation is coordinated through Headquarters and the Walton House Board.
